THE

ATHENEUM,

OR

SPIRIT OF THE

ENGLISH MAGAZINES.

Fourth Series.

PERIODICAL LITERATURE on the one hand affords employment to the public mind, and favors its tendencies to the pursuit of science and intellectual improvement; and, on the other, it gives a more general and freer spirit to literature itself than it would otherwise have, by bringing together the productions of every class of mind, displaying the main points of consideration in almost every question that can be started, opening the door to every inquirer whose talents entitle him to respect, and, in addition to this, offering something, which even in its lightness is elegant, for those who, were it not for the resources it affords, would live in a state of perfect intellectual sloth.—*Rev. Henry Stebbing.*
